4.3.3 Overall placing is determined first by Division, followed by race time. E.g. Assuming an "A Final" of 3 teams, the best result of an "A Consolation" team is 4th overall. It does not matter if a "A Consolation" team's time is faster than an "A Final" team.

4.3.4 In the event of a tie in points, race times from Round 1, 300m will be used as a tiebreaker.

5. Racing

5.1 Crews must embark & disembark the dragon boats as directed by the Dock Marshall or Assistant.

5.2 At least 5 metres of clear water must be maintained around each boat, including before and after races. Except for the Flag Catching round where at least 2 metres of clear water must be maintained

around each boat at all times. By definition, a boat includes the crew's paddles and therefore the 'clear water' is between paddle blade and adjacent paddle blade.

5.3 Crews shall immediately follow the instructions of the Referee & Starter.

5.4 Crews late to the starting line risk forfeiting their race.

5.5 At the start line:

- sterns must immediately follow the instructions of the starter
- crews shall not create excess noise that will distract a stern, the starter or another crew
- the starter will begin the race with the warning "Attention Please" followed by an air horn, or the word "GO".

5.6 Crews must race the entire length of the race course in the allocated lane. Lanes will be assigned starting with Lane 1 on the right.

5.7 Crews must finish the race with the same members as it started. All paddlers must remain seated and unless directed by your steersperson, no paddlers are permitted to move seating positions.

5.8 The finish line is reached when the furthest forward point of the boat breaks the plane of the finish line. Due to wind & external factors the actual finish line may not match the finish line buoys.

5.9 Following each race, unless otherwise directed, crews must proceed to the docking area.

5.10 Time penalties will be subjected to any teams attempting to gain a race advantage in an unsportsmanlike manner. i.e. jumping the start. or for not following steersperson or an official's instructions. Time penalties will be posted on the results board.

5.11 In the event of a false start or a race to be called off the official will blow the air horn 2 times or use the command 'Stop!' as required. Teams must stop racing immediately.

5.12 Sprint / Knock-Out Races

5.12.1 Sprint / Knock-out races will be divided into 3 back-to-back heats (A, B & C)

5.12.2 "A" heats will feature 2 - 4 crews.

- In the event of 2 crews, both crews will race 3 times. The winning crew must beat the other crew at least 2 out of the 3 heats.
- In the event of 3 crews, no crew will be eliminated until after the second heat. The crew with the slowest combined time from A & B will be eliminated.
- In the event of 4 crews, the last place team will be eliminated from heats A & B.

5.12.3 Eliminated crews will be informed and must head back to the dock immediately.

5.12.4 Crews racing again, must go directly back to the start line.

5.12.5 Lanes in B & C heats will be determined on the teams placing in the previous round, not your boat number. Listen to the referee and/or the starter for your proper lane.

5.13 Flag Catching Races

5.13.1 All teams shall follow the same path of travel, sterns are responsible for knowing the course.

5.13.2 Teams must come to a complete stop at the start line.

5.13.3 Teams will be separated by a 20 second time interval. The race time for each team will be taken from the time it takes to pass the start line to the finish line.

5.13.4 Drummers may sit facing the front of the boat in order to see the flags. They must remain seated during the race.

5.13.5 Drummers are to pick up one flag from each of the 3 flag buoys. They must show their 3 flags once crossing the finish line. Only the drummer is permitted to obtain the flag.

5.13.6 A time penalty of 20 seconds will be assigned per each flag missing or for each additional flag that is taken from a single flag buoy.

5.13.7 If no flags are remaining upon a team's arrival the drummer shall clearly touch the flag holder. No time penalty or bonuses will be given, unless it is clear that the drummer did not touch the flag holder, in which case a penalty up to 20 seconds will be assigned. At least one extra flag will be available at each buoy at the beginning of the race.

5.13.8 If a team misses a flag they are permitted to stop, back-up or perform a loop to obtain the flag only if such action does not impede the course of any other teams. Once you have missed the flag you must give way to all other teams approaching the flag buoy.

5.13.9 Teams may pass on the inside of a flag buoy and must end in one of the lanes in the original 300m course.

5.13.10 Crews are to avoid contact with other crews at all costs. If in the opinion of the Chief Referee any racing maneuver or a lack of clear water between boats that has endangered the safety of another crew, or materially affect the result of the race, the offending crew shall be issued a time penalty or if deemed necessary be disqualified from the race.

5.13.11 If a crew's race time has been adversely affected by the actions of another crew, the Chief Official may award a time bonus, with the Chief Referee's approval.

5.14 Overtaking, in the flag catching race

5.14.1 When a boat is overtaking another boat, it is the responsibility of all boats to maintain clear water as explained in rules 5.2 and 5.14.2 to 5.14.4.

5.14.2 Boats in the lead shall have right-of-way until they have been overtaken as explained in rule 5.14.3 or have given up right of way in 5.13.8. Boats in the lead are permitted to turn their boat as required when approaching a flag but shall not change course in an unexpected manner. If a turn is deemed excessive, reckless or results in a collision a time penalty may be issued.

5.14.3 The overtaking boat shall have right-of-way when the tip of the bow, of the overtaking boat, has passed the stern of the boat being overtaken.

5.14.4 When approaching the same flag:

- With one other boat: the boat on the left shall pass the flag on the left & the boat on the right shall pass the flag on the right.
- With three or more boats: the boat on the left shall pass the flag on the left. The boat in the middle shall pass the flag on the right. The boat on the right shall give right-of-way to all other boats & obtain their flag when it is safe to do so.

6. Protests

6.1 In the event of a crew wishing to make a protest, the Team Captain must submit a written protest to the Chief Official. Such protest must be made no later than 15 minutes after the results are posted or the receipt of a protest decision.

6.2 The Written Protest shall include the race number, name of team & Team Captain submitting the protest, name of any team(s) the protest is being made against and any team's boat number that is in dispute. It shall include a description of events in chronological order, provide rationale and reference any rules that have been impeded, if applicable. Optionally, it may list a proposed course of action which will be considered by the Officials.

6.3 A Protest Fee of \$40 shall be submitted along with the written protest. If successful, the fee will be refunded. If rejected the fee may or may not be refunded at the Chief Officials discretion.

6.4 When a protest is made, the Chief Official will immediately notify any other party involved in it and call a meeting with the Chief Referee & Starter to discuss. A final decision shall be made and posted within 30 minutes. The Chief Official must inform all parties involved in writing of its decisions and provide rationale. The Chief Official shall hand the decision to the Team Captain(s) involved, who must acknowledge receipt by signing the Chief Officials copy and recording the time in case of any appeals.

6.5 Any crews involved in the result of a protest have the right to appeal the decision by submitting or resubmitting a protest following the procedures listed in 6.1 – 6.3.
